 Alias Site Names: GENERAL SERVICES ADMINISTRATION - EASTERN DISTRIBUTION CENTER
 City: BURLINGTON
 Refer to Report Dated: County or Parrish: BURLINGTON State: NJ
 Report Developed By: Report Type: FED FAC PRELIMINARY ASSESSMENT REVIEW 001

- ☒ 1. Further Remedial Site Assessment Under CERCLA (Superfund) is not required because:
 NFRAP: No further Remedial Action planned
- ☐ 2. Further Assessment Needed Under CERCLA:

Discussion/Rationale:

The U.S. Environmental Protection Agency (EPA) has determined that no further remedial action by the Federal Superfund program is warranted at the referenced site, at this time. The basis for the no further remedial action planned (NFRAP) determination is provided in the attached document. A NFRAP designation means that no additional remedial steps under the Federal Superfund program will be taken at the site unless new information warranting further Superfund consideration or conditions not previously known to EPA regarding the site are disclosed. In accordance with EPA's decision regarding the tracking of NFRAP sites, the referenced site may be removed from the CERCLIS database and placed in a separate archival database as a historical record if no further Superfund interest is warranted. Archived sites may be returned to the CERCLIS site inventory if new information necessitating further Superfund consideration is discovered.

The NFRAP determination is based on the unlikelihood of release of hazardous waste to the site. Hazardous waste materials stored at the facility are well contained and maintained (in buildings on concrete floors). The decision is also supported by TechLaw's review report dated November 11, 2008 which reviewed the Federal Facility's Preliminary Assessment report dated August 2008 (submitted on behalf of the General Services Administration by Greenhorne and O'Mara).
